**Mission Overview**

The Heritage Partnership Program supports the National Park Service mission by contributing to two fundamental goals for the National Park Service: 1) Natural and cultural resources are conserved through formal partnership programs; and 2) through partnerships with other federal, state, and local agencies and nonprofit organizations, a nationwide system of parks, open space, rivers, and trails provides educational, recreational, and conservation benefits for the American people. These NPS goals support the DOI goals to provide recreation opportunities for America and safeguard lives, property and assets, advance scientific knowledge, and improve the quality of life for communities we serve.

**Subactivity Overview**

The NPS is proposing in FY 2007 to move Heritage Partnership Programs from the National Recreation and Preservation appropriation to a new umbrella activity—the America's Heritage and Preservation Partnership Program—within the Heritage Preservation Fund appropriation, as part of the President's Preserve America initiative. **Heritage Partnership Programs** (National Heritage Areas) have been created by Congress to promote the conservation of natural, historic, scenic, and cultural resources. Please see the Heritage Partnership Program section in the Historic Preservation Fund section for information.
